To our Unitholders

On behalf of the Trustees of the A&W Revenue Royalties Income Fund (the Fund) it is my pleasure to report the results for the second quarter ended June 14, 2015. The Fund enjoyed a strong quarter on all key measures. Same store sales increased by 8.9%. This increase coupled with the increased number of restaurants in the Royalty Pool generated an overall increase in royalty income of 12.8% as compared to the second quarter of 2014. Distributable cash per unit increased by 4.2 cents per unit for the second quarter.

During the second quarter, A&W Food Services continued to focus on its mission to “make A&W Canada’s only authentic better burger restaurants for time-crunched adults, delighting them on every single visit”. A&W’s strategic initiatives underlying its mission are to reposition and differentiate A&W as a “better burger” quick service restaurant. Beginning in 2013, A&W Food Services embarked on a journey to source simple, great-tasting ingredients, farmed with care. The journey began with the introduction of beef raised without the use of hormones and steroids in 2013, and continued in 2014 with the launch of chicken raised without the use of antibiotics and eggs from hens fed only a vegetarian diet without animal by-products. In 2015, A&W Food Services introduced organic and Fair Trade coffee.

These initiatives helped to fuel strong same store sales increases throughout the chain, resulting in an increase of 8.9% for the quarter and bringing our year to date increase to 9.0%.

Same store sales increases are the primary driver of growth in distributable cash per unit, and as a result of the strong performance through the first half of the year, we are pleased to have increased monthly distributions from 11.7¢ per unit to 12.1¢ per unit. This brings the annualized rate of distribution to \$1.452.

On behalf of the Trustees, my thanks to all of our investors who have placed their trust with the A&W Revenue Royalties Income Fund. We are pleased to be able to share the continued success of the business with our unitholders.

A&W Revenue Royalties Income Fund Management Discussion and Analysis

This Management Discussion and Analysis (MD&A) covers the year to date period from January 1, 2015 to June 14, 2015 and is dated July 21, 2015. This MD&A should be read in conjunction with the unaudited interim condensed consolidated financial statements of A&W Revenue Royalties Income Fund (the Fund) for the quarter ended June 14, 2015 and the audited annual consolidated financial statements of the Fund for the year ended December 31, 2014. Readers are also referred to the unaudited interim condensed consolidated financial statements of A&W Food Services of Canada Inc. (Food Services) for the quarter ended June 14, 2015 and the audited annual consolidated financial statements of Food Services for the year ended December 28, 2014. Such financial statements and additional information about the Fund and Food Services are available at www.sedar.com or www.awincomefund.ca.

The financial results reported in this MD&A are in accordance with International Financial Reporting Standards (IFRS) as applicable to interim financial reports including International Accounting Standards (IAS) 34, Interim Financial Reporting. The accounting policies applied in the interim condensed consolidated financial statements and this report are consistent with those followed in the preparation of the Fund's annual consolidated financial statements for the year ended December 31, 2014.

HIGHLIGHTS

- Same store sales for the second quarter of 2015 grew by 8.9% as compared to the same quarter of 2014. Year to date same store sales growth is +9.0%.
- Total sales in the Royalty Pool (as hereinafter defined) and royalty income increased by 12.8% for the second quarter compared to the same quarter of 2014.
- Distributable cash per unit increased by 4.2¢ to 37.8¢ per unit for the second quarter of 2015 compared to 33.6¢ per unit in the same quarter of 2014.
- Distribution rate to be increased by 3.4%.

FISCAL YEAR

The Fund uses a fiscal year ending December 31. Food Services uses a fiscal year comprising a 52 or 53 week period ending on the Sunday nearest December 31. Food Services' fiscal 2014 year was 52 weeks and ended December 28, 2014 (2013 – 52 weeks ended December 29, 2013). To align its financial reporting with that of Food Services, the Fund's second quarter of 2015 ended June 14, 2015 (2014 – June 15, 2014), 24 weeks after Food Services' fiscal year end. Same store sales growth is based on an equal number of days in each quarter.

SALES PERFORMANCE

Same store sales growth by A&W restaurants for which the royalty is payable (the Royalty Pool) by Food Services to A&W Trade Marks Limited Partnership (the Partnership) is a key performance indicator for the Fund. Same store sales growth is the change in sales of A&W restaurants in the Royalty Pool that operated during the entire 26 4-week periods ending June 14, 2015.

Same store sales for the second quarter of 2015 grew by 8.9% as compared to the same quarter of 2014. Food Services' strategy to reposition and differentiate A&W with better ingredients, such as its beef raised without the use of hormones or steroids, "natural" eggs and chicken raised without the use of antibiotics, continued to build customer traffic and increase sales. Year to date same store sales are up 9.0% compared to 2014 year to date.

Same store sales growth has been positive for nine consecutive quarters. The chart below shows the percentage change in same store sales by A&W restaurants for the eight most recently completed quarters.

Total sales reported by A&W restaurants in the Royalty Pool for the second quarter of 2015 were \$249,110,000, an increase of 12.8% from sales of \$220,867,000 for the second quarter of 2014. Year to date sales were \$451,558,000, an increase of 11.6% from sales of \$404,451,000 for 2014 year to date. The increase in sales was due to the same store sales growth and the sales from the 24 net new restaurants added to the Royalty Pool on January 5, 2015.

The Fund is pleased to announce that, as a result of the continued strong performance by restaurants in the Royalty Pool, the monthly distribution to unitholders will increase by 3.4%, from 11.7¢ per unit to 12.1¢ per unit beginning with the July 2015 distribution which is payable on August 31, 2015. The new distribution rate translates into an annualized distribution rate of \$1.452 per unit, an increase of 3.4% from the prior level of \$1.404.

ADJUSTMENT TO THE ROYALTY POOL

The 2015 adjustment to the Royalty Pool took place on January 5, 2015. The number of A&W restaurants in the Royalty Pool was increased by 32 new restaurants less eight restaurants that permanently closed during 2014. The addition of these 24 net new restaurants brings the total number of A&W restaurants in the Royalty Pool to 814. The estimated annual sales of the 32 new A&W restaurants are \$32,971,000 and annual sales for the eight permanently closed restaurants were \$5,171,000. The initial consideration for the estimated additional royalty stream was \$11,405,000, calculated by discounting the estimated additional royalties by 7.5% and dividing the result by the yield on units of the Fund for the 20 trading days ending October 27, 2014. The yield was adjusted to reflect income tax payable by Trade Marks. The Partnership paid Food Services 80% of the initial consideration (\$9,124,000) by issuance of 369,558 LP units which were subsequently exchanged for 739,116 non-voting common shares of Trade Marks. The remaining 20% of the consideration (\$2,281,000) will be paid in December 2015 by issuance of additional LP units, which may be exchanged for non-voting common shares of Trade Marks.

The actual amount of the consideration paid in December 2015 may differ from this amount depending on the actual annual sales reported by the new A&W restaurants.

After the initial consideration was paid for the January 5, 2015 adjustment to the Royalty Pool, Food Services' indirect interest in the Fund increased to 17.4%.

FINANCIAL HIGHLIGHTS

The following table sets out selected information from the unaudited interim condensed consolidated financial statements of the Fund prepared in accordance with IFRS. Non-IFRS measures of same store sales growth, distributable cash and distributable cash per equivalent unit are shown to provide more meaningful information and identify the amount of actual cash available to pay distributions to unitholders and dividends to Food Services.

⁽¹⁾ Same store sales growth is not an earnings measure recognized by IFRS and therefore may not be comparable to similar measures presented by other issuers. This information is provided as it is a key driver of growth in the Fund. See "Sales Performance".

⁽²⁾ Distributable cash is not an earnings measure recognized by IFRS and therefore may not be comparable to similar measures presented by other issuers. This information is provided as it identifies the amount of actual cash available to pay distributions to unitholders and dividends to Food Services. See "Distributable Cash".

⁽³⁾ The number of equivalent units and distributable cash per equivalent unit in 2015 includes the 92,390 LP units exchangeable for 184,780 common shares of Trade Marks representing the remaining 20% of the consideration for the January 5, 2015 adjustment to the Royalty Pool which is held back until December 2015 when the actual annual sales are reported by the new restaurants. The number of equivalent units and distributable cash per equivalent unit in 2014 includes the 210,490 LP units exchanged for 420,980 common shares of Trade Marks representing the final consideration paid in December 2014 for the January 5, 2014 adjustment to the Royalty Pool.

⁽⁴⁾ Net income in 2015 and 2014 includes non-cash gains and losses on interest rate swaps, amortization of deferred financing fees and deferred income taxes. These non-cash items have no impact on the Fund's ability to pay distributions to unitholders. The Fund's net income excluding these non-cash items is presented for information purposes only.

OVERVIEW

The Fund is a limited purpose trust established in 2001 under the laws of the Province of British Columbia pursuant to the Declaration of Trust. The units of the Fund trade on the Toronto Stock Exchange under the symbol AW.UN. The Fund's place of business is located at 300 – 171 West Esplanade, North Vancouver, BC. The Fund was established to invest in Trade Marks, which through its ownership interest in the Partnership, owns the A&W trade-marks used in the A&W quick service restaurant business in Canada. The Partnership has granted Food Services a licence (the Amended and Restated Licence and Royalty Agreement) to use the A&W trade-marks in Canada for a term expiring December 30, 2100, for which Food Services pays a royalty of 3% of the sales reported to Food Services by A&W restaurants in the Royalty Pool. Food Services is a leading franchisor of hamburger quick service restaurants in Canada.

The Partnership distributes its available cash, after satisfaction of any debt service, provision for operating and other expenses and any amounts retained as reserves, by way of distributions on LP units held by Trade Marks. Trade Marks subsequently distributes its available cash, after satisfaction of debt service and income tax obligations, provisions for administrative expenses of Trade Marks and the Fund, and retention of reasonable working capital reserves, by way of dividends on its common shares held by the Fund and Food Services. The Fund in turn makes distributions to unitholders.

Trade Marks' general and administrative expenses include the expenses of the Fund as the Fund has entered into an administration agreement with Trade Marks whereby Trade Marks, at its expense, provides or arranges for the provision of services required in the administration of the Fund.

A key attribute of the Fund is that the distributable cash available to make distributions to unitholders is based on the sales of the A&W restaurants in the Royalty Pool, less operating expenses associated with operating the Fund, interest and taxes. The Fund is a top-line fund, meaning it is not subject to variability of earnings or expenses associated with an operating business.

Another important aspect of the Fund is that Food Services owns the equivalent of 17.4% (2014 – 15.3%) of the units of the Fund through its ownership of common shares of Trade Marks. As a result, interests of Food Services are closely aligned with the interests of unitholders.

Growth in the Fund is achieved in two ways: first, and most importantly, by increasing the same store sales of the A&W restaurants in the Royalty Pool, and second by adding new A&W restaurants to the Royalty Pool each year.

The Royalty Pool is adjusted annually to reflect sales from new A&W restaurants added to the Royalty Pool, net of the sales of any A&W restaurants that have permanently closed. Food Services is paid for the additional royalty stream related to the sales of the net new restaurants, based on a formula set out in the Amended and Restated Licence and Royalty Agreement. The formula provides for a payment to Food Services based on 92.5% of the amount of estimated sales from the net new A&W restaurants and the current yield on the units of the Fund, adjusted for income taxes payable by Trade Marks. The consideration is paid to Food Services in the form of additional LP units. The additional LP units are, at the option of Food Services, exchangeable

for additional common shares of Trade Marks, which are in turn exchangeable for units of the Fund on the basis of two common shares for one unit of the Fund.

COMMON SHARES OF TRADE MARKS

The common shares of Trade Marks are owned by the Fund and Food Services as follows:

RESULTS OF OPERATIONS

INCOME

Royalty income for the second quarter of 2015 was \$7,474,000 based on sales of \$249,110,000. This was an increase of 12.8% from royalty income of \$6,627,000 and sales of \$220,867,000 for the second quarter of 2014. Year to date royalty income was \$13,547,000 based on sales of \$451,558,000, an increase of 11.6% from royalty income of \$12,134,000 and sales of \$404,451,000 for 2014 year to date. The increase in sales and royalty income was due to the same store sales growth of 8.9% for the quarter and 9.0% year to date as compared to 2014, and from the additional sales from the 24 net new A&W restaurants added to the Royalty Pool on January 5, 2015.

EXPENSES

The Fund's cash expenses excluding income taxes were as follows:

(dollars in thousands)	Period from Mar 23, 2015 to Jun 14, 2015	Period from Mar 24, 2014 to Jun 15, 2014	Period from Jan 1, 2015 to Jun 14, 2015	Period from Jan 1, 2014 to Jun 15, 2014
General and administrative	\$82	\$104	\$341	\$343
Net interest on term loan and other	\$554	\$559	\$1,089	\$1,102

General and administrative expenses for the second quarter of 2015 decreased by \$22,000 to \$82,000, compared to \$104,000 for the second quarter of 2014. The decrease in general and administrative expenses in the second quarter is primarily due to timing of expenses. Year to date general and administrative costs and interest expense did not change significantly for 2015 as compared to 2014.

GAIN/LOSS ON INTEREST RATE SWAPS

The Fund's net income included non-cash gains and losses on interest rate swaps equal to the change in the fair value of the interest rate swaps. These non-cash items had no impact on the Fund's cash available to pay distributions.

(dollars in thousands)	Period from Mar 23, 2015 to Jun 14, 2015	Period from Mar 24, 2014 to Jun 15, 2014	Period from Jan 1, 2015 to Jun 14, 2015	Period from Jan 1, 2014 to Jun 15, 2014
(Gain) loss on interest rate swaps	(\$2,055)	\$830	\$711	\$2,534

See "Liquidity and Capital Resources".

INCOME TAXES

The Fund is not currently taxed on its income as dividends received from Trade Marks are not subject to the tax on Specified Investment Flow-Through (SIFT) trusts which include income trusts such as the Fund. Trade Marks' taxable income is taxed at an effective rate of 19.0% (2014 – 19.0%).

Tax rules for partnerships with misaligned year ends were announced in 2011 and require Trade Marks to recognize income tax on the Partnership's income during the period between January 25 and December 31, 2011 over a five year period ending in 2016 on a formula basis, being 15% or \$517,000 in 2012, 20% or \$718,000 in 2013, 20% or \$727,000 in each of 2014 and 2015, and 25% or \$909,000 in 2016. The transitional tax included in current income tax expense for 2015 year to date is \$328,000 (2014 - \$331,000).

Deferred income taxes are recorded on the temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. Deferred income taxes are a non-cash item and had no impact on the Fund's cash available to pay distributions.

The Fund's income taxes were as follows:

(dollars in thousands)	Period from Mar 23, 2015 to Jun 14, 2015	Period from Mar 24, 2014 to Jun 15, 2014	Period from Jan 1, 2015 to Jun 14, 2015	Period from Jan 1, 2014 to Jun 15, 2014
Current income taxes	\$1,261	\$1,158	\$2,457	\$2,076
Deferred income taxes	427	(184)	(293)	(529)
Total provision for income taxes	\$1,688	\$974	\$2,164	\$1,547

The increase in current income taxes as compared to the prior year resulted from the increase in earnings before income taxes.

NET INCOME AND COMPREHENSIVE INCOME

Net income and comprehensive income was as follows:

(dollars in thousands)	Period from Mar 23, 2015 to Jun 14, 2015	Period from Mar 24, 2014 to Jun 15, 2014	Period from Jan 1, 2015 to Jun 14, 2015	Period from Jan 1, 2014 to Jun 15, 2014
Net income and comprehensive income attributable to unitholders of the Fund	\$5,945	\$3,572	\$7,622	\$5,670
Net income and comprehensive income attributable to Food Services' non-controlling interest in Trade Marks	1,252	581	1,605	923
Total net income and comprehensive income	\$7,197	\$4,153	\$9,227	\$6,593

Excluding the non-cash items described above, year to date net income and comprehensive income was \$9,660,000 for 2015, an increase of \$1,047,000 over \$8,613,000 for 2014.

DISTRIBUTABLE CASH

The distributable cash and payout ratio measures are provided as they identify the amount of actual cash available to pay distributions to unitholders and dividends to Food Services and provide information regarding the extent to which the Fund distributes cash. The distributable cash and payout ratios are not earnings measures recognized by IFRS and therefore may not be comparable to similar measures presented by other issuers.

Distributable cash is calculated as the operating cash flows of the Fund, adjusted for net changes in items of working capital. Changes in items of working capital are excluded as the Fund's working capital requirements are not permanent and are primarily due to the timing of payments between related parties. No deduction is made for capital expenditures as the Fund has no capital expenditures. There are no restrictions on distributions arising from compliance with financial covenants. The payout ratio is calculated by dividing the total of (i) distributions declared per unit plus (ii) accrued distributions per unit to the last day of the quarter or year, as applicable, by the distributable cash per unit generated in that period.

The following chart reconciles distributable cash to net cash generated from operating activities including net changes in items of working capital, the most directly comparable measure calculated in accordance with IFRS.

(dollars in thousands except per unit amounts)	Period from Mar 23, 2015 to Jun 14, 2015	Period from Mar 24, 2014 to Jun 15, 2014	Period from Jan 1, 2015 to Jun 14, 2015	Period from Jan 1, 2014 to Jun 15, 2014

⁽¹⁾ The number of equivalent units and distributable cash per equivalent unit in 2015 includes the 92,390 LP units exchangeable for 184,780 common shares of Trade Marks representing the remaining 20% of the consideration for the January 5, 2015 adjustment to the Royalty Pool which is held back until December 2015 when the actual annual sales are reported by the new restaurants. The number of equivalent units and distributable cash per equivalent unit in 2014 includes the 210,490 LP units exchanged for 420,980 common shares of Trade Marks representing the final consideration paid in December 2014 for the January 5, 2014 adjustment to the Royalty Pool.

- (2) In accordance with the Fund's Declaration of Trust, the Fund declares and records distributions in respect of any particular calendar month at the beginning of the immediate subsequent month, with the exception of the distribution for December of each year, which is declared and recorded in December of each year. Distributions in respect of any particular calendar month are paid on the last business day of the immediate subsequent month. The distributions declared in the second quarter of each year are in respect of the calendar months of March, April and May, and distributions declared in the year to date period are for the calendar months January, February, March, April and May.
- (3) The payout ratio is calculated by dividing the total distributions (which includes distributions declared and distributions accrued to the last day of the quarter) by distributable cash generated in that period.

Distributable cash generated in the second quarter of 2015 to pay distributions to unitholders and dividends to Food Services was \$5,577,000 compared to \$4,806,000 in the second quarter of 2014. Distributable cash generated in 2015 year to date was \$9,660,000 compared to \$8,613,000 in 2014 year to date. The \$1,047,000 year to date increase in distributable cash was comprised of the \$1,413,000 increase in royalty income and \$15,000 decrease in general and administrative and interest expenses, less a \$381,000 increase in current income taxes as discussed above.

Distributable cash generated per equivalent unit increased by 4.2¢ to 37.8¢ per unit in the second quarter of 2015 from 33.6¢ for the second quarter of 2014. Year to date distributable cash generated per unit increased by 5.2¢ to 65.4¢ per unit for 2015 from 60.2¢ for 2014 year to date. The increase in distributable cash per equivalent unit was due to the increase in royalty income resulting from the same store sales growth less the higher income tax expense.

Three monthly distributions totalling 35.1¢ per unit were declared in the second quarter of 2015, the same as 2014. 2015 year to date distributions were 58.5¢ per unit, the same as 2014. The payout ratio improved to 85.4% for the second quarter of 2015 from 96.3% for the second quarter of 2014. The year to date payout ratio improved to 97.1% for 2015 from 106.1% for 2014 year to date.

The Fund strives to provide unitholders with regular monthly distributions, and as a result of seasonality of sales in A&W restaurants, the Fund historically experiences seasonal fluctuations in its payout ratio. The Fund's objective is to maintain an annual payout ratio at or below 100% and this objective was met in 2014 with an annual payout ratio of 96.6%. The trailing four quarter payout ratio as at the end of the second quarter of 2015 was 93.2%. The following table shows the trailing four quarter payout ratio for 2013, 2014 and 2015.

The tax rules announced in 2011 for partnerships with misaligned year ends contributed to the higher payout ratio beginning in 2012. The impact of the transitional tax on distributable cash

per equivalent unit was 3.8¢ per unit in 2012, 5.3¢ per unit in 2013, 5.1¢ per unit in 2014, and is expected to be 4.9¢ per unit in 2015. There will be no further transitional tax payable after 2016.

The cumulative surplus of distributable cash at the end of the second quarter of 2015 was \$2,704,000, compared to a cumulative surplus of \$2,372,000 at the beginning of the year, an increase of \$332,000.

Due to the continued strong performance of the Fund, the Trustees have announced an increase in monthly distributions from 11.7¢ per unit to 12.1¢ per unit starting with the July 2015 distribution which will be paid on August 31, 2015 to unitholders of record on August 15, 2015. The new monthly distribution rate translates into an annualized distribution of \$1.452 per unit, an increase of 3.4% from the prior level of \$1.404. The Fund will continue to periodically review distribution levels and distribute available cash in order to maximize returns to unitholders and maintain uniformity of distributions.

DISTRIBUTIONS TO UNITHOLDERS

Distributions declared and paid during 2015 were as follows:

(dollars in thousands except per unit amounts)			
Month	Record date	Amount	Per unit
January	February 15, 2015	\$1,419	\$0.117
February	March 15, 2015	1,419	0.117
March	April 15, 2015	1,420	0.117
April	May 15, 2015	1,420	0.117
May	June 15, 2015	1,419	0.117
		\$7,097	\$0.585

The May distribution was paid on June 30, 2015, and is reported as a current liability as at June 14, 2015. On July 2, 2015, the Fund declared the June 2015 monthly distribution to unitholders of 11.7¢ per unit or \$1,419,000, payable on July 31, 2015.

TAX TREATMENT OF DISTRIBUTIONS

Of the \$0.585 per unit in distributions declared in 2015 year to date, 100% is designated as non-eligible dividends.

DIVIDENDS ON TRADE MARKS' COMMON SHARES

During 2015, Trade Marks declared and paid dividends on its voting and non-voting common shares as follows:

(dollars in thousands except per share amounts)		Aggregate amount paid to the Fund	Aggregate amount paid to Food Services
Month declared/paid	Per share		
January	\$0.0585	\$1,419	\$299
February	0.0585	1,419	299
March	0.0585	1,420	300
April	0.0585	1,420	299
May	0.0585	1,419	299
	\$0.2925	\$7,097	\$1,496

The May dividend was paid on June 30, 2015, and Food Services' share of \$299,000 is reported as a current liability as at June 14, 2015. On July 2, 2015, Trade Marks declared an aggregate dividend on its voting and non-voting common shares of \$1,718,000 payable to Food Services and the Fund on July 31, 2015.

SEASONALITY

Sales at A&W restaurants fluctuate seasonally. In freestanding A&W restaurants, weather impacts sales. In A&W restaurants in shopping centres, sales fluctuate due to higher traffic during the back-to-school and Christmas shopping seasons.

- (1) Distributable cash is not an earnings measure recognized by IFRS and therefore may not be comparable to similar measures presented by other issuers. This information is provided as it identifies the amount of actual cash available to pay distributions to unitholders and dividends to Food Services. See "Distributable Cash".
- (2) The number of equivalent units and distributable cash per equivalent unit in 2015 includes the 92,390 LP units exchangeable for 184,780 common shares of Trade Marks representing the remaining 20% of the consideration for the January 5, 2015 adjustment to the Royalty Pool which is held back until December 2015 when the actual annual sales are reported by the new restaurants. The number of equivalent units and distributable cash per equivalent unit in 2014 includes the 210,490 LP units exchanged for 420,980 common shares of Trade Marks representing the final consideration paid in December 2014 for the January 5, 2014 adjustment to the Royalty Pool.
- (3) The distribution for December of each year, which is paid on January 31 of the following year, is declared and recorded in the year in which it is earned. Therefore, four monthly distributions are declared in the fourth quarter of each year, and two monthly distributions are declared in the first quarter of each year.

LIQUIDITY AND CAPITAL RESOURCES

The Fund's policy is to distribute all available cash in order to maximize returns to unitholders over time, after allowing for reasonable reserves. In light of seasonal variances inherent to the restaurant industry and fluctuations in business performance, the Fund's policy is to make equal distribution payments to unitholders on a monthly basis in order to smooth out these fluctuations. The Trustees review distribution levels on a regular basis and any change in distributions will be implemented with a view to maintain the continuity of uniform monthly distributions. It is expected that future distributions will continue to be funded entirely by cash flow from operations and the cash reserve.

Trade Marks has a \$2,000,000 demand operating loan facility with a Canadian chartered bank (the Bank) to fund working capital requirements and for general corporate purposes. Amounts advanced under the facility bear interest at bank prime rate plus 0.5% and are repayable on demand. As at June 14, 2015 and July 21, 2015, the full amount of the facility was available (December 31, 2014 - \$1,218,000).

Trade Marks has a \$60,000,000 term loan with the Bank. The term loan is repayable on December 22, 2017 and contains a number of covenants including the requirement to meet certain earnings before interest, taxes, depreciation, amortization and non-cash charges/income (EBITDA) levels and debt to EBITDA ratios during each trailing four quarter period. Interest only is payable monthly, providing that Trade Marks' EBITDA, tested quarterly on a trailing four quarters basis are not less than specified amounts. In the event that EBITDA is less than these specified amounts, the term loan will be fully amortized over the greater of three years and the remaining term and repayment will be by way of blended monthly instalments of principal and interest. Trade Marks is generally prohibited from paying dividends on its common shares if those dividends would result in a breach of the term loan. Trade Marks was in compliance with all of its financial covenants as at July 21, 2015, June 14, 2015 and December 31, 2014.

Trade Marks uses interest rate swap agreements to manage risks from fluctuations in interest rates and facilitate uniform monthly distributions. All such instruments are used only for risk management purposes. Under the current interest rate swap, the term loan bears interest at 4.03% per annum, of which 2.53% per annum is fixed under the swap agreement maturing December 22, 2015 plus a credit charge of 1.50% per annum. The fair value of this interest rate swap as at June 14, 2015 was \$471,000 unfavourable (December 31, 2014 - \$660,000 unfavourable) and the change in fair value is recorded in net income as a gain on interest rate swaps.

Trade Marks has also entered into a forward start interest rate swap with an effective date of December 22, 2015 and a maturity date of December 22, 2022. Under the forward start interest rate swap, the term loan will bear interest at 4.26% per annum from December 23, 2015 to

December 22, 2017, comprised of 2.76% per annum which is fixed under the forward start swap agreement plus the 1.50% per annum credit charge. The swap interest rate is fixed at 2.76% per annum under the forward start swap agreement for an additional five years beyond the December 22, 2017 maturity date of the term loan, and the credit charge, which is currently 1.50% per annum, is subject to review by the Bank on December 22, 2017. The fair value of the forward start interest rate swap as at June 14, 2015 was \$3,006,000 unfavourable (December 31, 2014 - \$2,106,000 unfavourable) and the change in fair value is recorded in net income as a loss on interest rate swaps.

A general security agreement over the assets of Trade Marks has been provided as collateral for the demand operating loan facility and term loan. The Partnership has provided its guarantee in favour of the Bank of all of the indebtedness, covenants and obligations of Trade Marks to the Bank.

The following is a summary of contractual obligations payable by the Fund:

Payments due by period (dollars in thousands)	Total	Less than 1 year	1 – 3 years	4 – 5 years	After 5 years
Term loan	\$60,000	\$0	\$60,000	\$0	\$0

The Fund, Trade Marks and the Partnership have no other contractual or purchase obligations except as described under the section “Related Party Transactions and Balances”. The Fund, Trade Marks and the Partnership do not have any capital expenditures; their operating and administrative expenses are expected to be stable and reasonably predictable and are considered to be in the ordinary course of business.

OFF-BALANCE SHEET ARRANGEMENTS

The Fund, Trade Marks and the Partnership have no off-balance sheet arrangements.

RELATED PARTY TRANSACTIONS AND BALANCES

During the year to date period, royalty income of \$13,547,000 (2014 - \$12,134,000) was earned from Food Services of which \$2,489,000 (December 31, 2014 - \$2,614,000) is receivable at June 14, 2015. Royalty income earned during the quarter was \$7,474,000 (2014 - \$6,627,000).

During the year to date period, Trade Marks declared common share dividends payable to Food Services of \$1,496,000 (2014 - \$1,157,000). Dividends declared payable to Food Services during the quarter were \$898,000 (2014 - \$694,000). The \$299,000 dividend declared on June 2, 2015 and paid to Food Services on June 30, 2015 is reported as a current liability as at June 14, 2015 (December 31, 2014 - \$nil).

Other related party transactions and balances are referred to elsewhere in this MD&A.

CRITICAL ACCOUNTING ESTIMATES

Significant areas requiring the use of estimates are current and deferred income taxes and the fair value of the interest rate swaps. However, such estimates are not “critical accounting estimates” as (i) they do not require the Fund to make assumptions about matters that are highly uncertain at the time the estimate is made, and (ii) different estimates that could have been used, or changes in the accounting estimates that are reasonably likely to occur from period to period, would not have

had a material impact on the Fund's financial condition, changes in financial condition or financial performance.

Current tax is the expected tax payable on Trade Marks' taxable income for the year, using tax rates enacted or substantively enacted at the end of the reporting period, and any adjustment to tax payable in respect of previous years. Deferred tax is recognized in respect of temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements.

The total fair values of the interest rate swaps as at June 14, 2015 were \$3,477,000 unfavourable (December 31, 2014 - \$2,766,000 unfavourable) and the change in fair value is recorded in net income.

INTERNAL CONTROL OVER FINANCIAL REPORTING

The CEO and the CFO have designed, or caused to be designed under their supervision, internal controls over financial reporting to provide reasonable assurance regarding the reliability of the Fund's financial reporting and the preparation of its financial statements for external purposes in accordance with the Fund's generally accepted accounting principles. The control framework used to design the Fund's internal control over financial reporting is "Internal Control – Integrated Framework: 2013" issued in May 2013 by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). The Fund transitioned during the period to the updated framework to the extent that it relates to internal controls over financial reporting. Management has assessed the impact of this transition and concluded that there were no significant changes to the Fund's internal controls over financial reporting during the period covered by this MD&A that has materially affected, or is reasonably likely to materially affect, the Fund's internal control over financial reporting. Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Therefore, even those systems determined to be effective can provide only reasonable assurance with respect to financial statement preparation and presentation.

RISKS AND UNCERTAINTIES

The Restaurant Industry

The net earnings and distributable cash generated by the Fund are directly dependent upon the royalty the Partnership receives from Food Services, the Fund's general and administrative expenses, debt service obligations and income tax obligations. The growth of the royalty is dependent upon the ability of Food Services to (i) grow same store sales, (ii) maintain and grow the current system of franchises, (iii) locate new retail sites in prime locations and (iv) obtain qualified operators to become A&W franchisees.

Sales are subject to a number of factors that affect the restaurant industry generally and the quick service segment of this industry in particular, including the highly competitive nature of the industry, traffic patterns, demographic considerations and the type, number and proximity of competing quick service restaurants. Any significant event that adversely affects consumption of quick service food and beverages, such as, increased food and labour costs, changing tastes or health concerns, inflation, publicity from any food borne illness, government regulations concerning menu labelling or disclosure and drive-thru restrictions, could adversely impact the sales of A&W restaurants and consequently, the amount of the royalty payable to the Partnership.

Economic conditions, unemployment, changes in disposable consumer income, and a disease outbreak, could adversely impact consumer visits to restaurants and consequently, sales in A&W restaurants and royalty income for the Partnership. Any significant event that adversely impacts traffic to shopping centres, including closures of “anchor” stores, could adversely impact the sales of A&W restaurants in those shopping centres and consequently, the amount of the royalty payable to the Partnership.

The introduction of sales taxes upon sales by restaurants could negatively impact sales at A&W restaurants. In addition, an increase in sales taxes on sales by restaurants could adversely affect sales at A&W restaurants.

Food Services competes with other companies, including other well-capitalized franchisors with extensive financial, technological, marketing and personnel resources and high brand name recognition and awareness. There can be no assurance that Food Services or its franchisees will be able to respond to various competitive factors affecting the franchise operations of Food Services in the quick service restaurant industry.

Sales by A&W franchisees are dependent upon the availability and quality of raw materials used in the products sold by such A&W franchisees. The availability and price of these commodities are subject to fluctuation and may be affected by a variety of factors affecting the supply and demand of the products used in these products. A significant reduction in the availability or quality of raw materials purchased by A&W franchisees resulting from any of the above factors could have a material adverse effect on sales of A&W restaurants.

Certain of the products that Food Services provides to A&W franchisees are sourced from a single or a limited number of suppliers. An interruption in the supply of such products could materially adversely affect sales in A&W restaurants.

Food Services faces competition for retail locations and franchisees from its competitors and from franchisors of other businesses. Food Services’ inability to successfully obtain qualified franchisees could adversely affect its business development. The opening and success of franchised restaurants is dependent on a number of factors, including the availability of suitable sites, negotiations of acceptable lease or purchase terms for new locations, permits and government regulatory compliance, continued access to suitable financing, the ability to meet construction schedules, and the availability of experienced management and hourly employees (including as a result of recent limitations imposed under Canada’s Temporary Foreign Worker Program). Increases in minimum wage rates may also affect the opening and success of franchisee restaurants, as a significant portion of the employees of these restaurants are paid at rates related to minimum wage. A&W franchisees may not have all these business abilities or access to financial resources necessary to open an A&W restaurant or to successfully develop or operate an A&W restaurant in their franchise areas in a manner consistent with Food Services’ standards.

Food Services and A&W franchisees may be the subject of complaints or litigation from guests alleging food-related illnesses, injuries suffered on the premises or other food quality, health or operational concerns. Adverse publicity resulting from such allegations may materially affect the sales of A&W restaurants, regardless of whether such allegations are true or whether Food Services or an A&W franchisee is ultimately held liable.

Income Tax Matters

There can be no assurance that Canadian federal income tax laws respecting the treatment of mutual fund trusts, SIFTs and partnerships will not be further changed in a manner which adversely affects the Fund and its unitholders.

OUTLOOK

A&W's second quarter sales reflect the strong momentum established by Food Services' initiatives to grow market share in the quick service restaurant (QSR) burger market through the launch of "better ingredients".

In 2013, Food Services was the first major QSR chain to use only beef raised without the use of hormones and steroids. Chicken is one of the fastest growing segments of the QSR industry, and Food Services' move in 2014 to serve only chicken raised without the use of antibiotics was a key element in its strategy to accelerate growth. Food Services also enhanced its breakfast menu by moving to eggs from hens fed only a vegetarian diet without animal by-products. Breakfast was further supported by the launch in January 2015 of organic and Fair Trade coffee, another first for a major chain.

Menu innovation has continued with the limited time offer Peppered Bacon Mama, Papa and Grandpa Burgers and the permanent addition to the menu of the Bacon Ranch Chubby Chicken Wrap. All of these menu items were very well received by our guests.

Another major strategic initiative of Food Services is the extensive re-imaging program to modernize and enhance the appeal of existing A&W restaurants. The new design has been developed to create high visibility and instant recognition of the Home of The Burger Family[®]. Over 50% of A&W's existing restaurants have completed the re-image to the new design. Including the new restaurants opened in the new design since the beginning of the re-image program, over 500 restaurants in the A&W chain now have the new design. Costs of re-imaging restaurants are borne by the franchisees and there is no cost to the Fund.

Food Services is also focused on accelerating the pace of growth of new A&W restaurants, particularly in the key Ontario and Quebec markets. Eight new A&W restaurants were opened across the country in 2015 year to date, and 22 additional new restaurants are under construction or in varying stages of permitting and are expected to open in the coming months.

Food Services' year to date system sales growth for all A&W restaurants across Canada (which includes restaurants that have not yet been added to the Royalty Pool) was 12.4% as compared to 2014 year to date. Food Services' total system sales on a trailing four quarter basis are over \$1 Billion.

Food Services' mission is "to make A&W Canada's only authentic better burger restaurants for time-crunched adults, delighting them on every single visit".

FORWARD LOOKING INFORMATION

Certain statements in this MD&A contain forward-looking information within the meaning of applicable securities laws in Canada (forward-looking information). The words “anticipates”, “believes”, “budgets”, “could”, “estimates”, “expects”, “forecasts”, “intends”, “may”, “might”, “plans”, “projects”, “schedule”, “should”, “will”, “would” and similar expressions are often intended to identify forward-looking information, although not all forward-looking information contains these identifying words.

The forward-looking information in this MD&A includes, but is not limited to: the Fund’s objective to maintain a payout ratio at or below 100%; Food Services’ plans to differentiate A&W as a “better burger QSR” restaurant; Food Services’ plans to accelerate the pace of growth of new A&W restaurants; Food Services’ plans to modernize and enhance the appeal of existing A&W restaurants; Food Services’ mission “to make A&W Canada’s only authentic better burger restaurants for time-crunched adults, delighting them on every single visit”; the Fund’s policy to distribute all available cash in order to maximize returns to unitholders over time, after allowing for reasonable reserves; any change in the Fund’s distributions will be implemented with a view to maintain the continuity of uniform monthly distributions; the Fund expects that future distributions will continue to be funded entirely by cash flow from operations and the cash reserve; the operating and administrative expenses of the Fund, Trade Marks and the Partnership are expected to be stable and reasonably predictable; and, the Fund, through dividends from Trade Marks, is expected to have sufficient financial resources to pay future distributions.

The forecasts and projections that make up the forward-looking information are based on assumptions which include, but are not limited to: the general risks that affect the restaurant industry will not arise including that there are no changes in availability of experienced management and hourly employees and no material changes in government regulations concerning menu labelling and disclosure and drive-thru restrictions; no publicity from any food borne illness; no changes in competition; no changes in the quick service restaurant burger market including as a result of changes in consumer taste or health concerns or changes in economic conditions or unemployment or a disease outbreak; no adverse impact on sales from closures of “anchor” stores in shopping centres; no increases in food and labour costs; the continued availability of quality raw materials; continued additional franchise sales and maintenance of franchise operations; no closures of A&W restaurants that materially affect the amount of the Royalty; franchisees duly pay franchise fees and other amounts; no impact on gross sales from new or increased or harmonization of sales taxes; continued availability of key personnel; no material litigation from guests alleging food-related illness, injuries suffered on the premises or other food quality, health or operations concerns; continued ability to preserve intellectual property; Food Services is able to grow same store sales; Food Services is able to maintain and grow the current system of franchises; Food Services is able to locate new retail sites in prime locations; Food Services is able to obtain qualified operators to become A&W franchisees; Food Services continues to pay the Royalty; Trade Marks continues to pay dividends on the common shares and the Partnership continues to make distributions on its units; Trade Marks can continue to comply with its obligations under its credit arrangements; Trade Marks’ performance does not fluctuate such that cash distributions are affected.

The forward-looking information is subject to risks, uncertainties and other factors that could cause actual results to differ materially from the results anticipated by the forward-looking information. The factors which could cause results to differ from current expectations include, but are not limited to: general risks that affect the restaurant industry including changes in the availability of experienced management and hourly employees and changes in government regulations concerning menu labelling and disclosure and drive-thru restrictions; publicity from any food-borne illness; competition; changes in the quick service restaurant burger market including as a result of changes in consumer taste and health concerns and changes in economic conditions and unemployment and a disease outbreak; adverse impact on sales from closures of “anchor” stores in shopping centres; increases in food and labour costs; dependence on the availability and quality of raw materials; dependence on additional franchise sales and franchise operations; the closure of A&W restaurants may affect the amount of the Royalty; dependence on A&W

franchisees' ability to pay franchise fees and other amounts; the impact of new or increased or harmonization of sales taxes upon gross sales; dependence on key personnel; material litigation from guests alleging food-related illness, injuries suffered on the premises or other food quality, health or operations concerns; dependence on intellectual property; Food Services' ability to grow same store sales; Food Services' ability to maintain and grow the current system of franchises; Food Services' ability to locate new retail sites in prime locations; Food Services' ability to obtain qualified operators to become A&W franchisees; dependence of the Fund on Trade Marks, the Partnership and Food Services; dependence of the Partnership on Food Services; risks related to leverage and restrictive covenants; the risk that cash distributions are not guaranteed and will fluctuate with the Partnership's performance; risks relating to the nature of units; risks relating to the distribution of securities on redemption or termination of the Fund; the Fund may issue additional units diluting existing unitholders' interests; income tax matters, all as more particularly described in this MD&A under the heading "Risks and Uncertainties" and in the Fund's Annual Information Form under the heading "Risk Factors".

All forward-looking information in this MD&A is qualified in its entirety by this cautionary statement and, except as required by law, the Fund undertakes no obligation to revise or update any forward-looking information as a result of new information, future events or otherwise after the date hereof.

1. General information

A&W Revenue Royalties Income Fund (the Fund) is a limited purpose trust established on December 18, 2001 with an unlimited number of Trust Units (Units) under the laws of the Province of British Columbia pursuant to the Declaration of Trust. The Fund is listed on the Toronto Stock Exchange under the symbol AW.UN. The Fund's place of business is located at 300 – 171 West Esplanade, North Vancouver, BC. The Fund was established to invest in A&W Trade Marks Inc. (Trade Marks), which through its ownership interest in A&W Trade Marks Limited Partnership (the Partnership) owns the A&W trade-marks used in the A&W quick service restaurant business in Canada.

2. Basis of preparation

These interim condensed consolidated financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS), as applicable to interim financial reports including International Accounting Standards (IAS) 34, Interim Financial Reporting. The interim condensed consolidated financial statements do not include all of the information and disclosures required in the annual financial statements, and should be read in conjunction with the Fund's audited annual consolidated financial statements as at December 31, 2014.

The accounting policies adopted in the preparation of the interim condensed consolidated financial statements are consistent with those followed in the preparation of the Fund's annual consolidated financial statements for the year ended December 31, 2014.

These interim condensed consolidated financial statements were authorized for issue by the Board of Trustees of the Fund on July 21, 2015.

3. Intangible assets

	New restaurants	Closed restaurants	Royalty Pool	Amount \$
Balance as at December 31, 2014	891	(101)	790	202,059

Balance as at June 14, 2015	923	(109)	814	213,464

The intangible assets are the A&W trade-marks used in the A&W quick service restaurant business in Canada. The Partnership has granted A&W Food Services of Canada Inc. (Food Services) a licence (the Amended and Restated Licence and Royalty Agreement) to use the A&W trade-marks in Canada for a term expiring December 30, 2100, for which Food Services pays a royalty of 3% of sales reported to Food Services by specific A&W restaurants (the Royalty Pool).

The Royalty Pool is adjusted annually to reflect sales from new A&W restaurants, net of the sales of any A&W restaurants that have permanently closed. Food Services is paid for the additional royalty stream related to the sales of the net new restaurants, based on a formula set out in the Amended and Restated Licence and Royalty Agreement. The formula provides for a payment to Food Services based on 92.5% of the amount of estimated sales from the net new restaurants and the current yield on the Units of the Fund, adjusted for income taxes payable by Trade Marks. The consideration is paid to Food Services in the form of additional partnership units (LP units). The additional LP units are, at the option of Food Services, exchangeable for additional shares of Trade Marks which are in turn exchangeable for Units of the Fund on the basis of two common shares for one Unit of the Fund. The consideration paid for the annual adjustment to the Royalty Pool is recorded as an increase in the value of the A&W trade-marks.

The 13th annual adjustment to the Royalty Pool took place on January 5, 2015. The number of A&W restaurants in the Royalty Pool was increased by 32 new restaurants less eight restaurants that permanently closed during 2014. The estimated annual sales of the 32 new A&W restaurants are \$32,971,000 and annual sales for the eight permanently closed restaurants were \$5,171,000. The initial consideration for the estimated additional royalty stream was \$11,405,000, calculated by discounting the estimated additional royalties by 7.5% and dividing the result by the yield on the units of the Fund for the 20 trading days ending October 27, 2014. The yield was adjusted to reflect the income tax payable by Trade Marks. The Partnership paid Food Services 80% of the initial consideration (\$9,124,000) by issuance of 369,558 LP units which were subsequently exchanged for 739,116 non-voting common shares of Trade Marks. The remaining 20% of the consideration (\$2,281,000) will be paid in December 2015 by issuance of additional LP units, which may be exchanged for non-voting common shares of Trade Marks. The actual amount of the consideration paid in December 2015 may differ from this amount depending on the actual annual sales reported by the new A&W restaurants.

4. Term loan, operating loan facility and interest rate swaps

Trade Marks has a \$2,000,000 demand operating loan facility with HSBC Bank Canada (the Bank) to fund working capital requirements and for general corporate purposes. Amounts advanced under the facility bear interest at the bank prime rate plus 0.5% and are repayable on demand. As at June 14, 2015, the amount of the facility available was \$2,000,000 (December 31, 2014 - \$1,218,000).

Trade Marks has a \$60,000,000 term loan with the Bank. The term loan is repayable on December 22, 2017 and contains a number of covenants including the requirement to meet certain earnings before interest, taxes, depreciation, amortization and non-cash charges/income (EBITDA) levels and debt to EBITDA ratios during each trailing four quarter period. Interest only is payable monthly, providing that Trade Marks' EBITDA, tested quarterly on a trailing four quarters basis, is not less than specified amounts. In the event that EBITDA is less than these specified amounts, the term loan will be fully

amortized over the greater of three years and the remaining term and repayment will be by way of blended monthly instalments of principal and interest. Trade Marks was in compliance with all of its financial covenants as at June 14, 2015 and December 31, 2014.

Trade Marks uses interest rate swap agreements to manage risks from fluctuations in interest rates. Under the current interest rate swap, the term loan bears interest at 4.03% per annum, of which 2.53% per annum is fixed under the swap maturing December 22, 2015 plus a credit charge of 1.50% per annum. The fair value of this interest rate swap as at June 14, 2015 was \$471,000 unfavourable (December 31, 2014 - \$660,000 unfavourable) and the change in fair value is recorded in net income as a gain on interest rate swaps.

Trade Marks has also entered into a forward start interest rate swap with an effective date of December 22, 2015 and a maturity date of December 22, 2022. Under the forward start interest rate swap, the term loan will bear interest at 4.26% per annum from December 23, 2015 to December 22, 2017, comprised of 2.76% per annum which is fixed under the forward start swap agreement, plus a 1.50% per annum credit charge. The swap interest rate is fixed at 2.76% per annum under the forward start swap agreement for an additional five years beyond the December 22, 2017 maturity date of the term loan, and the credit charge, which is currently 1.50% per annum, is subject to review by the Bank on December 22, 2017. The fair value of the forward start interest rate swap as at June 14, 2015 was \$3,006,000 unfavourable (December 31, 2014 - \$2,106,000 unfavourable) and the change in fair value is recorded in net income as a loss on interest rate swaps.

Trade Marks continues to fair value the interest rate swaps as a Level 3 financial instrument. There have been no changes to the valuation techniques in the period.

A general security agreement over the assets of Trade Marks has been provided as collateral for the demand operating loan facility and term loan. The Partnership has provided its guarantee in favour of the Bank of all the indebtedness, covenants and obligations of Trade Marks to the Bank.

The term loan comprises:

	June 14, 2015	December 31, 2014

To align its financial reporting with the business cycle of its operations, Food Services uses a fiscal year comprising a 52 or 53 week period ending on the Sunday nearest December 31. The fiscal 2014 year was 52 weeks and ended December 28, 2014 (2013 – 52 weeks ended December 29, 2013). Food Services' second quarter ends 24 weeks after its fiscal year end.

The financial results in this report are in accordance with International Financial Reporting Standards (IFRS) as applicable to interim financial reports including International Accounting Standards (IAS) 34, Interim Financial Reporting. The principal accounting policies adopted in the preparation of the interim condensed consolidated financial statements and this report are consistent with those followed in the preparation of Food Services' annual consolidated financial statements for the year ended December 28, 2014.

Same Store Sales

Same store sales growth is the change in sales of A&W restaurants that operated during the entire 26 4-week periods ending June 14, 2015.

Same store sales for the second quarter of 2015 grew by 8.9% as compared to the same quarter of 2014. Food Services' strategy to differentiate A&W with better ingredients, such as its beef raised without the use of hormones or steroids, "natural" eggs, chicken raised without the use of antibiotics and organic and Fair Trade coffee, continued to build customer traffic and increase sales. Year to date same store sales growth was 9.0%.

System Sales

System sales for all A&W restaurants in Canada for the 12 weeks ended June 14, 2015 were \$255,558,000, an increase of 12.4% from the 12 weeks ended June 15, 2014. Year to date system sales were \$472,182,000, an increase of 12.5% from 2014 year to date. The increase in system sales was due to the same store sales growth plus the increase in the number of restaurants from 816 at the end of the second quarter of 2014 to 837 at the end of the second quarter of 2015.

On a trailing four quarter basis, total A&W system sales were \$1,038,000,000, surpassing the \$1 billion mark, an important milestone for the business.

New Restaurant Openings and Restaurant Closures

Food Services opened five new A&W restaurants during the quarter and eight year to date in 2015, compared to four new restaurants in the same quarter of 2014 and 14 in 2014 year to date. Twenty-two additional new restaurants are under construction or in varying stages of permitting and are expected to open in the coming months. Generally, new restaurants are opening later in the year as compared to 2014 due to permitting and other delays. One restaurant was closed in the quarter and two year to date in 2015 compared to no closures in 2014 year to date. As at June 14, 2015, there were 837 A&W restaurants in Canada, of which 828 were operated by franchisees and nine were corporately owned and operated.

Overview

Food Services is the franchisor of the A&W restaurant chain in Canada. Food Services' revenue consists of fees from franchised restaurants, revenue from the sale of food and supplies to franchisees and distributors, revenue from the opening of new franchised restaurants, revenue from granting multi-site development areas, revenue from company-owned restaurants, and revenue from sales of A&W Root Beer concentrate to licensed bottlers who produce and distribute A&W Root Beer for sale in retail grocery stores.

Food Services' operating costs include the cost of materials, supplies and equipment sold either directly to franchisees or to distributors that service the restaurants or that are sold to the licensed bottlers, and costs of sales and other expenses of the restaurants operated corporately by Food Services. General and administrative expenses are expenses associated with providing services to the franchised A&W restaurants and establishing new A&W restaurants.

The A&W trade-marks used in the A&W quick service restaurant business in Canada are owned by the Partnership. The Partnership has granted Food Services a licence (the Amended and Restated Licence and Royalty Agreement) to use the A&W trade-marks in Canada for a term

expiring December 30, 2100, for which Food Services pays a royalty of 3% of the sales reported by specific A&W restaurants in Canada (the Royalty Pool).

Annual Adjustment to the Royalty Pool

The Royalty Pool is adjusted annually to reflect sales from new A&W restaurants added to the Royalty Pool, net of the sales of any A&W restaurants that have permanently closed. Food Services is paid for the additional royalty stream related to the sales of the net new A&W restaurants, based on a formula set out in the Amended and Restated Licence and Royalty Agreement. The formula provides for a payment to Food Services based on 92.5% of the amount of estimated sales from the net new A&W restaurants and the current yield on the units of the Fund, adjusted for income taxes payable by Trade Marks. The consideration is paid to Food Services in the form of additional limited partnership units (LP units). The additional LP units are, at the option of Food Services, exchangeable for additional common shares of Trade Marks which are in turn exchangeable for units of the Fund on the basis of two common shares for one unit of the Fund. The consideration paid for the annual adjustment to the Royalty Pool is recorded by Food Services as an increase in its investment in Trade Marks, and an increase in the deferred gain.

The 2015 adjustment to the Royalty Pool took place on January 5, 2015. The number of A&W restaurants in the Royalty Pool was increased by 32 new restaurants less eight restaurants that permanently closed during 2014. The addition of these 24 net new restaurants brings the total number of A&W restaurants in the Royalty Pool to 814. The estimated annual sales of the 32

new A&W restaurants are \$32,971,000 and annual sales for the eight permanently closed restaurants were \$5,171,000. The initial consideration for the estimated additional royalty stream was \$11,405,000, calculated by discounting the estimated additional royalties by 7.5% and dividing the result by the yield on units of the Fund for the 20 trading days ending October 27, 2014. The yield was adjusted to reflect income tax payable by Trade Marks. The Partnership paid Food Services 80% of the initial consideration (\$9,124,000) by issuance of 369,558 LP units which were subsequently exchanged for 739,116 non-voting common shares of Trade Marks. The remaining 20% of the consideration (\$2,281,000) will be paid in December 2015 by issuance of additional LP units, which may be exchanged for non-voting common shares of Trade Marks. The actual amount of the consideration paid in December 2015 may differ from this amount depending on the actual annual sales reported by the new A&W restaurants.

After the initial consideration was paid for the January 5, 2015 adjustment to the Royalty Pool, Food Services' indirect interest in the Fund increased to 17.4%.

2015 Operating Results

Revenue

Food Services' franchising and corporate revenue for the second quarter of 2015 was \$25,000,000 compared to \$22,029,000 for the second quarter of 2014. Year to date total revenue was \$44,975,000 compared to \$41,174,000 for 2014 year to date.

Franchising revenue for the second quarter was \$21,842,000 compared to \$19,968,000 for the prior year. Year to date franchising revenue was \$38,987,000 compared to \$37,152,000 for the prior year to date, an increase of \$1,835,000. Revenue generated by the system sales growth increased by \$3,597,000. Offsetting this was a \$1,762,000 decrease in construction, equipment and other revenue from opening new restaurants, as eight new restaurants opened year to date in 2015 compared to 14 new restaurants in 2014 year to date.

Corporate restaurant sales in the second quarter of 2015 were \$3,158,000 compared to \$2,061,000 in the second quarter of 2014. Year to date corporate restaurant sales were \$5,988,000 compared to \$4,022,000 in 2014 year to date. Same store sales growth in the restaurants in the Ottawa market was in line with national same store sales growth. In addition, a new corporate restaurant was opened in Ottawa in late 2014, and two additional restaurants are currently being operated corporately until they are refranchised.

Operating costs and general and administrative expenses

Operating costs for the second quarter of 2015 were \$8,685,000 compared to \$7,549,000 in the second quarter of 2014. Year to date operating costs were \$14,965,000 compared to \$13,932,000 in 2014 year to date, an increase of \$1,033,000. Costs of food and packaging increased by \$2,752,000 in line with the increase in corporate restaurant sales and franchising revenue generated by the system sales growth noted above. Construction and equipment costs for new restaurants decreased by \$1,719,000 in 2015 year to date as compared to 2014 year to date, in line with the decrease in revenue and number of new restaurants noted above.

General and administrative expenses represent costs of providing services to franchised restaurants and establishing new restaurants, and were \$6,410,000 for the second quarter of 2015 compared to \$5,610,000 for the second quarter of 2014, and \$13,024,000 for 2015 year to date compared to \$11,969,000 for 2014 year to date. The increase in the quarter and year to date was due to inflationary increases and investments in strategic initiatives.

Operating earnings (earnings before royalty expense, Food Services' share of income from Trade Marks, interest, taxes, depreciation and amortization) increased by \$1,090,000 to \$10,325,000 for the second quarter of 2015 compared to \$9,235,000 for the second quarter of 2014. Year to date operating earnings increased by \$1,834,000 to \$17,815,000 for 2015 compared to \$15,981,000 for 2014 year to date. The year to date operating margin was 39.6% for 2015 compared to 38.8% for 2014 year to date.

Royalty expense

Royalty expense for the second quarter of 2014 increased by \$847,000 to \$7,474,000 compared to \$6,627,000 for the second quarter of 2014. Year to date royalty expense increased by \$1,517,000 to \$13,780,000 compared to \$12,263,000 for 2014 year to date. The increase in royalty expense resulted from the additional net 24 restaurants in the Royalty Pool and the same store sales growth of restaurants in the Royalty Pool.

Food Services' share of Trade Marks' income

Food Services' share of Trade Marks' income for the second quarter of 2015 increased by \$671,000 to \$1,252,000 compared to \$581,000 for the second quarter of 2014. Food Services' year to date share of Trade Marks' income increased by \$682,000 to \$1,605,000 compared to \$923,000 for 2014 year to date. Trade Marks' net income for the quarter and year to date was higher than the prior year due to a non-cash gain in the quarter and a lower non-cash loss year to date on Trade Marks' interest rate swaps in 2015 as compared to 2014. In addition, Food Services' ownership in Trade Marks increased from 14.0% as at the end of the second quarter of 2014 to 17.4% as at the end of the second quarter of 2015.

Other comprehensive income

Other comprehensive income (loss) consists of actuarial gains or losses, net of tax, on the supplementary retirement benefit plan. Actuarial gains result from an increase in the discount rate used to determine the accrued benefit obligation; actuarial losses results from a decrease in the discount rate. The actuarial gain, net of tax, for the second quarter of 2015 was \$349,000 compared to an actuarial loss of \$208,000 for the second quarter of 2014. Year to date there was an actuarial loss of \$290,000 for 2015 compared to a loss of \$664,000 for 2014 year to date.

Liquidity and Capital Resources

Food Services is primarily a franchise business with 828 of its 837 restaurants franchised. Food Services has minimal capital requirements related to its corporate restaurants and head office. Future restaurant growth will continue to be funded by franchisees although in 2014, Food Services incurred capital expenditures to open a new corporate restaurant in the Ottawa market. Food Services expects to have sufficient capital resources to fund the expansion of corporate restaurants and has no long term debt obligations. Food Services has sufficient cash on hand to meet its obligations and has a \$5,000,000 demand operating loan facility with HSBC Bank Canada (the Bank) to fund its working capital requirements and for general corporate purposes. Amounts advanced under the facility bear interest at the bank prime rate plus 0.5% and are repayable on demand. Food Services has provided 2,000,000 common shares of Trade Marks as collateral. As at June 14, 2015, letters of credit totalling \$407,000 (December 28, 2014 - \$407,000) have been issued by the Bank on behalf of Food Services to landlords and cities for development of new restaurants, leaving \$4,593,000 (December 28, 2014 - \$4,593,000) of the facility available.

Off-Balance Sheet Arrangements

Food Services has no off-balance sheet arrangements.

Related Party Transactions and Balances

Royalty expense for the year to date period was \$13,780,000 (2014 - \$12,263,000), of which \$2,489,000 (December 28, 2014 - \$2,381,000) is payable to the Partnership at June 14, 2015. Royalty expense for the quarter was \$7,474,000 (2014 - \$6,627,000).

During the year to date period, Trade Marks declared dividends on common shares held by Food Services of \$1,496,000 (2014 - \$1,157,000), of which \$299,000 (December 28, 2014 - \$nil) is receivable at June 14, 2015. Dividends declared payable to Food Services during the quarter were \$898,000 (2014 - \$694,000).

During the period, Food Services contracted with a private company controlled by certain shareholders and directors of Food Services, for rental of a private plane and crew for business travel. The cost of the services provided under the contract during the year to date period were \$279,000 (2014 - \$129,000). At June 14, 2015, \$134,000 (December 28, 2014 - \$nil) is payable to the private company by Food Services. The cost of services provided during the quarter were \$192,000 (2014 - \$49,000).

During the year to date period, Food Services paid \$100,000 (2014 - \$100,000) to a professional baseball club, of which a shareholder, director and officer of Food Services is a part owner, in exchange for advertising the A&W brand at the ballpark. At June 14, 2015, \$nil (December 28, 2014 - \$nil) is payable to the baseball club by Food Services. The amount paid during the quarter was \$nil (2014 - \$nil).

Food Services maintains an advertising fund that is supported by prescribed contributions from corporate and franchise restaurants. The advertising fund paid \$293,000 (2014 - \$282,000) to Food Services during the year to date period for marketing, promotional and administrative services provided to the advertising fund. The amount paid by the advertising fund to Food Services during the quarter was \$147,000 (2014 - \$141,000). At June 14, 2015, the advertising fund had a deficit balance of \$1,098,000 which is included in accounts receivable (December 28, 2014 – surplus balance of \$437,000 included in accounts payable and accrued liabilities). The advertising fund balance fluctuates seasonally, as contributions from restaurants are based on sales which fluctuate seasonally. The advertising fund balance is also affected by timing of expenditures for advertising and promotional programs. It is normal for the advertising fund to be in a deficit position after the second quarter.

Other related party transactions and balances are referred to elsewhere in this report.

Critical Accounting Estimates

The preparation of financial statements in conformity with IFRS requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. It is reasonably possible that circumstances may arise that would cause actual results to differ from management estimates; however, management does not believe it is likely that such differences will materially affect Food Services' financial position. Significant areas requiring the use of management estimates are investment in Trade Marks, pension

obligations, and current and deferred income taxes. However, such estimates are not “critical accounting estimates” as (i) they do not require Food Services to make assumptions about matters that are highly uncertain at the time the estimate is made, and (ii) different estimates that could have been used, or changes in the accounting estimates that are reasonably likely to occur from period to period, would not have had a material impact on Food Services’ financial condition, changes in financial condition or financial performance.

Risks and Uncertainties

The success of Food Services is dependent on the ability of Food Services to (i) grow same store sales, (ii) maintain and grow the current system of franchises, (iii) locate new retail sites in prime locations and (iv) obtain qualified operators to become A&W franchisees. Sales are subject to a number of factors that affect the restaurant industry generally and the quick service segment of this industry in particular, including the highly competitive nature of the industry, traffic patterns, demographic considerations, and the type, number and proximity of competing quick service restaurants. Any significant event that adversely affects consumption of quick service food or beverages, such as increased food and labour costs, changing tastes or health concerns, inflation, publicity from any food borne illness, government regulations concerning menu labelling or disclosure and drive-thru restrictions could adversely impact the sales of A&W restaurants and consequently, the amount of the royalty payable to the Partnership. Economic conditions, unemployment, changes in disposable consumer income, and a disease outbreak, could adversely impact consumer visits to restaurants, and consequently sales in A&W restaurants and royalty income for the Partnership. Any significant event that adversely impacts traffic to shopping centres, including closures of “anchor” stores, could adversely impact the sales of A&W restaurants in those shopping centres and consequently, the amount of the royalty payable to the Partnership.

The introduction of sales taxes upon sales by restaurants could negatively impact sales at A&W restaurants. In addition, an increase in sales taxes on sales by restaurants could adversely affect sales at A&W restaurants.

Food Services competes with other companies, including other well-capitalized franchisors with extensive financial, technological, marketing and personnel resources and high brand name recognition and awareness. There can be no assurance that Food Services or its franchisees will be able to respond to various competitive factors affecting the franchise operations of Food Services in the quick service restaurant industry.

Sales by A&W franchisees are dependent upon the availability and quality of raw materials used in the products sold by such A&W franchisees. The availability and price of these commodities are subject to fluctuation and may be affected by a variety of factors affecting the supply and demand of the products used in these products. A significant reduction in the availability or quality of raw materials purchased by A&W franchisees resulting from any of the above factors could have a material adverse effect on sales of A&W restaurants.

Certain of the products that Food Services provides to A&W franchisees are sourced from a single or a limited number of suppliers. An interruption in the supply of such products could materially adversely affect sales in A&W restaurants.

Food Services faces competition for retail locations and franchisees from its competitors and from franchisors of other businesses. Food Services’ inability to successfully obtain qualified franchisees could adversely affect its business development. The opening and success of

franchised restaurants is dependent on a number of factors, including the availability of suitable sites, negotiations of acceptable lease or purchase terms for new locations, permits and government regulatory compliance, continued access to suitable financing, the ability to meet construction schedules, and the availability of experienced management and hourly employees (including as a result of recent limitations imposed under Canada's Temporary Foreign Worker Program). Increases in minimum wage rates may also affect the opening and success of franchisee restaurants, as a significant portion of the employees of these restaurants are paid at rates related to minimum wage. A&W franchisees may not have all these business abilities or access to financial resources necessary to open an A&W restaurant or to successfully develop or operate an A&W restaurant in their franchise areas in a manner consistent with Food Services' standards.

Food Services and A&W franchisees may be the subject of complaints or litigation from guests alleging food-related illnesses, injuries suffered on the premises or other food quality, health or operational concerns. Adverse publicity resulting from such allegations may materially affect the sales of A&W restaurants, regardless of whether such allegations are true or whether Food Services or an A&W franchisee is ultimately held liable.

Outlook

A&W's second quarter sales reflect the strong momentum established by Food Services' initiatives to grow market share in the quick service restaurant (QSR) burger market through the launch of "better ingredients".

In 2013, Food Services was the first major QSR chain to use only beef raised without the use of hormones and steroids. Chicken is one of the fastest growing segments of the QSR industry, and Food Services' move in 2014 to serve only chicken raised without the use of antibiotics was a key element in its strategy to accelerate growth. Food Services also enhanced its breakfast menu by moving to eggs from hens fed only a vegetarian diet without animal by-products. Breakfast was further supported by the launch in January 2015 of organic and Fair Trade coffee, another first for a major chain.

Menu innovation has continued with the limited time offer Peppered Bacon Mama, Papa and Grandpa Burgers and the permanent addition to the menu of the Bacon Ranch Chubby Chicken Wrap. All of these menu items were very well received by our guests.

Another major strategic initiative of Food Services is the extensive re-imaging program to modernize and enhance the appeal of existing A&W restaurants. The new design has been developed to create high visibility and instant recognition of the Home of The Burger Family^{fi}. Over 50% of A&W's existing restaurants have completed the re-image to the new design. Including the new restaurants opened in the new design since the beginning of the re-image program, over 500 restaurants in the A&W chain now have the new design. Costs of re-imaging restaurants are borne by the franchisees and there is no cost to the Fund.

Food Services is also focused on accelerating the pace of growth of new A&W restaurants, particularly in the key Ontario and Quebec markets. Eight new A&W restaurants were opened across the country in 2015 year to date, and twenty-two additional new restaurants are under construction or in varying stages of permitting and are expected to open in the coming months.

Food Services' mission is "to make A&W Canada's only authentic better burger restaurants for time-crunched adults, delighting them on every single visit".

Notes to Interim Condensed Consolidated Financial Statements

(Unaudited)

June 14, 2015

(figures in tables are expressed in thousands of dollars)

1 General information

A&W Food Services of Canada Inc. (the Company or Food Services) is in the business of developing and franchising quick-service restaurants in Canada. During the period ended June 14, 2015, the Company opened eight locations and closed two locations, bringing the total number of A&W restaurants to 837, of which 828 are franchised and nine are owned and operated corporately. Food Services' registered offices are located at Suite 300 - 171 West Esplanade, North Vancouver, British Columbia, Canada.

2 Basis of preparation

These interim condensed consolidated financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS), as applicable to interim financial reports including International Accounting Standards (IAS) 34, *Interim Financial Reporting*. The interim condensed consolidated financial statements do not include all of the information and disclosures required in the annual financial statements, and should be read in conjunction with Food Services' audited annual consolidated financial statements as at December 28, 2014.

The accounting policies adopted in the preparation of the interim condensed consolidated financial statements are consistent with those followed in the preparation of Food Services' annual consolidated financial statements for the year ended December 28, 2014.

These interim condensed consolidated financial statements were authorized for issue by the Board of Directors of Food Services on July 21, 2015.

3 Significant accounting policies**Consolidation**

The financial statements include the accounts of Food Services and its 60% interest in A&W Root Beer Beverages of Canada Inc. (Beverages). The non-controlling interest represents an equity interest in Beverages owned by outside parties, and is presented as a component of equity.

Fiscal year

To align its financial reporting with the business cycle of its operations, the Company uses a fiscal year comprising a 52- or 53-week period ending the Sunday nearest December 31. The fiscal 2014 year was 52 weeks and ended December 28, 2014 (2013 - 52 weeks ended December 29, 2013). Beverages uses a fiscal year ending December 31. The second quarter ends 24 weeks after the fiscal year end.

4 Investment in A&W Trade Marks Inc. and deferred gain

In 2002, Food Services sold the A&W trade-marks used in the A&W quick service restaurant business in Canada to A&W Trade Marks Inc. (Trade Marks), which subsequently transferred them to the A&W Trade Marks Limited Partnership (the Partnership). The Partnership has granted Food Services a licence (the Amended and Restated Licence and Royalty Agreement) to use the A&W trade-marks in Canada for a term expiring December 30, 2100, for which Food Services pays a royalty of 3% of the sales reported to Food Services by specific A&W restaurants in Canada (the Royalty Pool). The gain realized on the sale of the A&W trade-marks was deferred and is being amortized over the term of the Amended and Restated Licence and Royalty Agreement. Prior to October 2003, the amortization was based upon the present value of the expected royalty payments made under the Amended and Restated Licence and Royalty Agreement. Amortization of the gain is recognized on the consolidated statement of income.

The Royalty Pool is adjusted annually to reflect sales from new A&W restaurants added to the Royalty Pool, net of the sales of any A&W restaurants that have permanently closed. Food Services is paid for the additional royalty stream related to the sales of the net new restaurants, based on a formula set out in the Amended and Restated Licence and Royalty Agreement. The formula provides for a payment to Food Services based on 92.5% of the amount of estimated sales from the net new restaurants and the current yield on the Units of the A&W Revenue Royalties Income Fund (the Fund), adjusted for income taxes payable by Trade Marks. The consideration is paid to Food Services in the form of additional partnership units (LP units). The additional LP units are, at the option of Food Services, exchangeable for additional common shares of Trade Marks which are in turn exchangeable for Units of the Fund on the basis of two common shares for one unit of the Fund. The consideration paid for the annual adjustment to the Royalty Pool is recorded by Food Services as an increase in its investment in Trade Marks, and an increase in the deferred gain. These additions to the deferred gain are amortized over the remaining term of the Amended and Restated Licence and Royalty Agreement from the date of addition.

The 13th annual adjustment to the Royalty Pool took place on January 5, 2015. The number of A&W restaurants in the Royalty Pool was increased by 32 new restaurants less eight restaurants that permanently closed during 2014. The estimated annual sales of the 32 new A&W restaurants are \$32,971,000 and annual sales for the eight permanently closed restaurants were \$5,171,000. The initial consideration for the estimated additional royalty stream was \$11,405,000, calculated by discounting the estimated additional royalties by 7.5% and dividing the result by the yield on the units of the Fund for the 20 trading days ending October 27, 2014. The yield was adjusted to reflect the income tax payable by Trade Marks. The Partnership paid Food Services 80% of the initial consideration (\$9,124,000) by issuance of 369,558 LP units which were subsequently exchanged for 739,116 non-voting common shares of Trade Marks. The remaining 20% of the consideration (\$2,281,000) will be paid in December 2015 by issuance of additional LP units, which may be exchanged for non-voting common shares of Trade Marks. The actual amount of the consideration paid in December 2015 may differ from this amount depending on the actual annual sales reported by the new restaurants.
