Top-Line Income Fund Structure

- Royalties are based on Gross Sales reported by restaurants in the Royalty Pool

Impact of COVID-19

- Restrictions on the operations of A&W restaurants in response to COVID-19, as well as temporary restaurant closures, vaccine passport mandates and self-isolation requirements for restaurant staff who had contracted, or been exposed to, COVID-19 continued to impact the sales at A&W restaurants in 2021. However, the impact on sales has lessened since Q2 2020, when the impact of COVID-19 peaked and a total of 230 A&W restaurants (out of 971 restaurants in the Royalty Pool) were temporarily closed due to COVID-19 related public health measures.
- Starting in Q3 2021, many of the public health restrictions related to COVID-19 were eased or lifted which led to increased guest counts and a reduction in the number of A&W restaurants that were temporarily closed or were not able to offer dine-in services.
- As at January 2, 2022, all of the A&W restaurants that had been temporarily closed due to COVID-19 related restrictions had reopened.
